BRINGS VALUE TO YOUR  
HOME AND OFFICE

# KERMIT SKIRTING BOARD

1. KERMIT Skirting Boards are made of composite materials, manufactured from in essence a mixture of PVC and natural mine rals.

Kermit Skirting Boards have a unique design that features a cable channel, flexible edges to take the shape of the surfaces.

Kermit's PVC comes almost fully from recyclable plastics that are otherwise destined for landfill!

Kermit Skirting Boards is extremely easy to install with it's "click" system.

Cable channel acts as an installation rack that you can remove the skirting board from very easily!

"At the forefront of innovation is Kermit Floor.
